

Patient Name : Mr MR.DUMMY

DOB/Age/Gender : 23 Y/Male

Patient ID / UHID : 8052347/RCL7248831

Referred By : Dr. X

Sample Type : Serum

Sample Collected : Apr 26, 2024, 01:00 PM

Report Date : May 24, 2024, 06:52 PM.

Barcode No : SI484433

Report Status : Final Report

Test Description	Value(s)	Unit(s)	Reference Range
------------------	----------	---------	-----------------

Hepatitis B Surface Antibodies (HBsAb)

Hepatitis B surface Antibody, Anti Hbs ECLIA	15.0	IU/L	> 10
---	------	------	------

Interpretation:

Reference range is defined as per CLSI guidelines and WHO International Standard for Anti-HBs

Interpretation :

RESULT IN IU/L	REMARKS	INTERPRETATION
<10	Non- Reactive	Indicates absence of antibodies to Hepatitis B Surface antigen.
>=10	Reactive	Indicates presence of antibodies to Hepatitis B Surface antigen.

Note :

1. Reactive test result indicates presence of antibodies to Hepatitis B Surface Antigen. Detection of Anti-HBs antibodies is observed in recent Hepatitis B viral infection, resolved Hepatitis B viral infection and after successful HBV vaccination.
2. This assay does not differentiate between a vaccine induced immune response and an immune response induced by infection with HBV.
3. Non-Reactive test result indicates absence of antibodies to Hepatitis B Surface Antigen.
4. False positive results may be observed in patients receiving mouse monoclonal antibodies, on heparin therapy, on biotin supplements for diagnosis or therapy, presence of heterophilic antibodies in serum.
5. False negative reaction may be due to processing of sample collected early in the course of disease, presence of mutant forms of HBsAg and immunocompromised / immunosuppressed conditions.
6. Test conducted on serum.

Uses :

1. To determine immune status to HBV or disease progression in individuals infected with HBV
2. To determine if vaccination is needed
3. To determine if protective immunity has been achieved following a vaccination regimen.

Terms and Conditions of Reporting

1. The presented findings in the Reports are intended solely for informational and interpretational purposes by the referring physician or other qualified medical professionals possessing a comprehensive understanding of reporting units, reference ranges, and technological limitations. The laboratory shall not be held liable for any interpretation or misinterpretation of the results, nor for any consequential or incidental damages arising from such interpretation.
2. It is to be presumed that the tests performed pertain to the specimen/sample attributed to the Customer's name or identification. It is presumed that the verification particulars have been cleared out by the customer or his/her representation at the point of generation of said specimen / sample. It is hereby clarified that the reports furnished are restricted solely to the given specimen only.
3. It is to be noted that variations in results may occur between different laboratories and over time, even for the same parameter for the same Customer. The assays are performed and conducted in accordance with standard procedures, and the reported outcomes are contingent on the specific individual assay methods and equipment(s) used, as well as the quality of the received specimen.
4. This report shall not be deemed valid or admissible for any medico-legal purposes.
5. The Customers assume full responsibility for apprising the Company of any factors that may impact the test finding. These factors, among others, includes dietary intake, alcohol, or medication / drug(s) consumption, or fasting. This list of factors is only representative and not exhaustive.

DISCLAIMER

This is a sample report provided for demonstration purposes only and does not represent an actual patient report. Test results, reference ranges, methodologies, instrumentation, and report formats may vary depending on the laboratory performing the test. The format and representation shown are indicative of reports generated by the National Reference Laboratory of Redcliffe Labs, Noida. This sample report should not be used for medical interpretation, diagnosis, or treatment decisions.
