LABORATORY REPORT

Redcliffe labs

Patient Name	: **Mr MR.DUMMY**		
DOB/Age/Gender	: 23 Y/Male	Sample Collected	: Apr 26, 2024, 01:00 PM
Patient ID / UHID	: 8052379/RCL7248930	Report Date	: May 25, 2024, 12:32 PM.
Referred By	: Dr. Dr. X	Barcode No	: SI484720
Sample Type	: Serum	Report Status	: Final Report

Test Description	Value(s)	Unit(s)	Reference Range
HTLV I & II Total Antibody			
HTLV I & II Total Antibody *(Serum,CMIA)*	0.66	S/CO	Non reactive: < 1.0 Reactive: >= 1.0

Interpretation:
Human T cell lymphotropic virus type I & II (HTLV 1& II) antibodies indicate infection due to these viruses, which belong to the Retroviridae family.

HTLV I : Infection may progress to infective dermatitis, uvetitis syndrome ,HTLV I associated myelopathy (HAM), Adult T cell Leukemia/ Lymphome (ATL).

HTLV II: Plays a key role in certain neurological, hematological and dermatological diseases. Asscociation with Hairy cell Leukemia is not clearly established. Presence of these antibodies (HTLV I & II) indicate infection and the individual is considered unfit to donate blood.

*** End Of Report ***

Disclaimer: Method given in report are only indicative and can be changed depending upon type of machine and kit available at time of testing.

Not all tests at all locations are under NABL scope. Availability of tests under NABL scope varies from lab to lab.

Terms and Conditions of Reporting

1. The presented findings in the Reports are intended solely for informational and interpretational purposes by the referring physician or other qualified medical professionals possessing a comprehensive understanding of reporting units, reference ranges, and technological limitations. The laboratory shall not be held liable for any interpretation or misinterpretation of the results, nor for any consequential or incidental damages arising from such interpretation.

2. It is to be presumed that the tests performed pertain to the specimen/sample attributed to the Customer's name or identification. It is presumed that the verification particulars have been cleared out by the customer or his/her representation at the point of generation of said specimen / sample. It is hereby clarified that the reports furnished are restricted solely to the given specimen only.

3. It is to be noted that variations in results may occur between different laboratories and over time, even for the same parameter for the same Customer. The assays are performed and conducted in accordance with standard procedures, and the reported outcomes are contingent on the specific individual assay methods and equipment(s) used, as well as the quality of the received specimen.

4. This report shall not be deemed valid or admissible for any medico-legal purposes.

5. The Customers assume full responsibility for apprising the Company of any factors that may impact the test finding. These factors, among others, includes dietary intake, alcohol, or medication / drug(s) consumption, or fasting. This list of factors is only representative and not exhaustive.
