**BIOCHEMISTRY REPORT**  
**Porphyrians, 24 Hrs Urine**

**PORPHYRINS TOTAL, QUANTITATIVE, 24-HOUR URINE**  
 (Column chromatography)

|                           |        |        |         |
|---------------------------|--------|--------|---------|
| <b>Porphyrians</b>        | 105.00 | µg/day | <150.00 |
| <b>Total Urine Volume</b> | 1800   |        |         |

**Comments :**

This assay demonstrates increased levels of Total Porphyrians in the urine in cases of Congenital erythropoietic porphyria, Porphyria cutanea tarda & Mixed porphyria. All patients presenting with photosensitive dermatosis should be tested for Porphyrians. To differentiate Porphyrias and Lead intoxication, the determination of Porphyrians is usually combined with Urinary 5-ALA and Porphobilinogen (PBG). Drugs that may precipitate Porphyria are Antipyretics, Barbiturates, Phenylhydrazine and Sulphonamides.

*Sohini Sengupta*

**Dr. Sohini Sengupta**  
 MD (Cl Biochemistry), DNB,  
 FNB (Lab Medicine)  
 Medical Laboratory Director  
 HOD (Biochemistry & Special Assays)

Booking Centre :- Lifeline Diagnostic, Shop No-2, Colony No-139, Ward No-10, Subhash Nagar, Rohtak, Haryana - 124001  
 Processing Lab :- Redcliffe Lifetech Pvt. Ltd., H-55, Sector-63, Noida, Uttar Pradesh - 201301

# Terms and Conditions of Reporting

1. The presented findings in the Reports are intended solely for informational and interpretational purposes by the referring physician or other qualified medical professionals possessing a comprehensive understanding of reporting units, reference ranges, and technological limitations. The laboratory shall not be held liable for any interpretation or misinterpretation of the results, nor for any consequential or incidental damages arising from such interpretation.
2. It is to be presumed that the tests performed pertain to the specimen/sample attributed to the Customer's name or identification. It is presumed that the verification particulars have been cleared out by the customer or his/her representation at the point of generation of said specimen / sample. It is hereby clarified that the reports furnished are restricted solely to the given specimen only.
3. It is to be noted that variations in results may occur between different laboratories and over time, even for the same parameter for the same Customer. The assays are performed and conducted in accordance with standard procedures, and the reported outcomes are contingent on the specific individual assay methods and equipment(s) used, as well as the quality of the received specimen.
4. This report shall not be deemed valid or admissible for any medico-legal purposes.
5. The Customers assume full responsibility for apprising the Company of any factors that may impact the test finding. These factors, among others, includes dietary intake, alcohol, or medication / drug(s) consumption, or fasting. This list of factors is only representative and not exhaustive.
