

Patient Name : Mr MR.DUMMY			
DOB/Age/Gender : 23 Y/Male		Sample Collected : Apr 26, 2024, 01:00 PM	
Patient ID / UHID : 8052685/RCL7249275		Report Date : May 09, 2024, 10:49 AM	
Referred By : Dr. X		Barcode No : ZC665965	
Sample Type : CSF		Report Status : Final Report	
Test Description	Value(s)	Unit(s)	Reference Range

Alpha Feto Protein (AFP), CSF

Alpha Feto Protein - CSF <i>CLIA</i>	0.09	IU/mL	<1.2
-----------------------------------------	------	-------	------

Interpretation:
 1. AFP is not normally expressed in the central nervous system (CNS). AFP is not elevated in the presence of a craniopharyngioma.
 2. However, presence of germ cell tumours in the CNS and CNS involvement in metastatic cancer and meningeal carcinomatosis often results in increased levels of AFP in cerebrospinal fluid.

Reference :
 Serum and cerebrospinal fluid human chorionic gonadotropin (hCG) and alpha-fetoprotein (AFP) in intracranial germ cell tumors. Seregni E, et al: Int J Biol Markers 2002;17(2):112-118

All Lab results are subject to clinical interpretation by qualified medical professional and this report is not subject to use for any medico-legal purpose.

Terms and Conditions of Reporting

1. The presented findings in the Reports are intended solely for informational and interpretational purposes by the referring physician or other qualified medical professionals possessing a comprehensive understanding of reporting units, reference ranges, and technological limitations. The laboratory shall not be held liable for any interpretation or misinterpretation of the results, nor for any consequential or incidental damages arising from such interpretation.
2. It is to be presumed that the tests performed pertain to the specimen/sample attributed to the Customer's name or identification. It is presumed that the verification particulars have been cleared out by the customer or his/her representation at the point of generation of said specimen / sample. It is hereby clarified that the reports furnished are restricted solely to the given specimen only.
3. It is to be noted that variations in results may occur between different laboratories and over time, even for the same parameter for the same Customer. The assays are performed and conducted in accordance with standard procedures, and the reported outcomes are contingent on the specific individual assay methods and equipment(s) used, as well as the quality of the received specimen.
4. This report shall not be deemed valid or admissible for any medico-legal purposes.
5. The Customers assume full responsibility for apprising the Company of any factors that may impact the test finding. These factors, among others, includes dietary intake, alcohol, or medication / drug(s) consumption, or fasting. This list of factors is only representative and not exhaustive.

DISCLAIMER

This is a sample report provided for demonstration purposes only and does not represent an actual patient report. Test results, reference ranges, methodologies, instrumentation, and report formats may vary depending on the laboratory performing the test. The format and representation shown are indicative of reports generated by the National Reference Laboratory of Redcliffe Labs, Noida. This sample report should not be used for medical interpretation, diagnosis, or treatment decisions.
